

IMPORTANT INFORMATION

The Notice to Mariners is published by the National Geospatial-Intelligence Agency (NGA), under the authority of Department of Defense Directive 5105.60, to advise mariners of important matters affecting navigational safety, including new hydrographic discoveries, changes in channels and navigational aids, etc. (U.S. Code Title 10, Sec. 442 and Title 44, Sec. 1336 refer). Nothing in the arrangement of information implies endorsement or acceptance by NGA in matters affecting the status and boundaries of States and territories. The Notice to Mariners presents corrective information affecting charts, NGA/DLIS Catalog of Maps Charts and Related Products, Coast Pilots, USCG Light Lists, NGA List of Lights and other products produced by the National Geospatial-Intelligence Agency, National Ocean Service and U.S. Coast Guard.

Information for the Notice to Mariners is contributed by the following Agencies: National Geospatial-Intelligence Agency (NGA) (Department of Defense) for waters outside the territorial limits of the United States; National Ocean Service (NOS) (Department of Commerce), which is charged with the surveys and charting of the coasts and harbors of the United States and its territories; the U.S. Coast Guard (USCG) (Department of Homeland Security), which is responsible for the safety of life at sea and the establishment and operation of aids to navigation; and the U.S. Army Corps of Engineers (Department of Defense), which is charged with the improvement of rivers and harbors of the United States. In addition, important contributions are made by foreign hydrographic offices and cooperating observers of all nationalities.

For further information concerning NGA hydrographic products and services, including the Maritime Safety Web site, users may contact:

The Maritime Safety Web site can be accessed directly at <http://msi.nga.mil/NGAPortal/MSI.portal>. For your convenience NGA provides four e-mail addresses. For information affecting Notice to Mariners use MCDNtM@nga.mil, for information affecting Sailing Directions and all other navigational publications use MCDPubs@nga.mil, for information concerning the Maritime Safety Web site, use webmaster_nss@nga.mil and for information concerning the World Wide Navigational Warning Service, use NavSafety@nga.mil.

Mariners are requested to notify NGA of discrepancies in charts and publications, using the Marine Information Report and Suggestion Sheet at the back of this Notice to Mariners. This form should also be used to report permanent changes, additions, or deletions from charted or published information. Reports which constitute an immediate hazard to navigation should be sent to the nearest NAVAREA Coordinator via coast radio stations. All reports are greatly appreciated.

Cover Photo: NOAA Ship *Reuben Lasker* (R228) is a fishery research vessel built at the Marinette Marine Corporation shipyard in Marinette, Wisconsin, and was commissioned in May, 2014. She is named for Dr. Reuben Lasker (1929-1988), a renowned fisheries scientist who served as director of the coastal fisheries division of NOAA's Southwest Fisheries Science Center. *Reuben Lasker's* primary objective is to support fish, marine mammal, and turtle surveys off the U.S. West Coast and in the eastern tropical Pacific Ocean. She has a low sound signature to reduce reactions of fish to the presence of the ship. *Reuben Lasker* is also equipped with oceanographic sampling and measuring systems, instrumented trawls, longlines, and plankton nets. The ship has a dynamic positioning system to steer along a pre-determined trackline. She is 208 feet in length, has a beam of 49 feet, a draft of 20 feet with centerboard up and 30 feet with centerboard down. She displaces 1,840 tons (light) and 2,479 tons fully loaded. She has a range of 12,000 nautical miles at 12 knots and can operate at sea for 40 days. She is manned by 5 NOAA Corps officers or mates, 5 licensed engineers, 14 crew and up to 15 scientists. Her homeport is San Diego, CA.
